# FUNDING

“Lack of trust has defined funding to organizations in Africa, assuming we don’t have the capacity or systems to handle large or unrestricted grants. The Scott grants prove we have the capacity.”

“We need to liberate ourselves from the donor starvation cycle!”

-A Nonprofit Wishlist for Funders

“WOW. We can now support the growth of our organization and concentrate on our work, not the fundraising needed.”

“All of the issues we’re fighting for are interconnected and intersectional.”

Scott grants were described as “a hope and a light” allowing nonprofits to “stay alive.”
